

A Day in the Life at Squar Milner

[Beginning of Video]

[Music Begins]

Male Narrator: Squar Milner is an accounting and advisory firm. But not just any accounting firm.

We're a business made up of people. And those people work hard and play hard. Let's go.

We work outside, while inside. You're sharing ideas and having your opinions heard. And amongst all that, you're also learning with more than enough CPE training to meet your annual requirements.

You train, learn, get mentored, make friends. Between collaboration and great conversation, you can take a moment to enjoy the view with friends at your work and [pause] enjoy the view at their work, or their work, or their work!

Then play hard. We got you covered. Go on a firm trip here, here, here, and here.

Oh, we're serious!

Get back, feel good, work well, work on some amazing clients, get noticed, get promoted, grow your career. As we continue to grow the firm.

Welcome to Squar Milner.
